SyscomX

Product Data Sheet

SYSCOM X RACK 4U 600×450

Product Overview

The **SYSCOM X RACK 4U 600×450** is a high-quality rack mount enclosure designed for secure installation and organization of electronic and networking equipment in standard **19-inch rack systems**. Built with durable steel construction and a professional **black powder-coated finish**, this rack enclosure provides excellent structural strength and long-term reliability.

The enclosure is designed with **efficient ventilation and dual fan mounting positions** to maintain optimal airflow and cooling performance for sensitive equipment. Its **removable top panel** allows quick access during installation, maintenance, or system upgrades.

With a compact yet robust design, the **SYSCOM X RACK 4U 600×450** is an ideal solution for network infrastructure, CCTV installations, telecom systems, industrial electronics, and data communication equipment.

Technical Specifications

Specification	Details
Product Name	SYSCOM X RACK
Model	4U 600×450
Rack Standard	19 Inch
Rack Height	4U
Width	600 mm
Depth	450 mm
Material	High-quality Steel
Color	Black
Cooling Support	2 × Cooling Fan Mounts
Ventilation	Top and Side Ventilation
Access	Removable Top Panel
Mounting Type	Rack Mount / Wall Mount Compatible

Key Features

- ✓ Standard **19-inch rack mount compatibility**
- ✓ **4U rack height** for versatile equipment installation
- ✓ **600 × 450 mm** compact enclosure size
- ✓ Strong **steel construction**
- ✓ Durable **black powder-coated surface finish**
- ✓ **Dual cooling fan mounting support**
- ✓ Ventilated design for improved airflow and heat dissipation
- ✓ **Removable top cover** for easy installation and maintenance
- ✓ Integrated mounting points for secure installation
- ✓ Suitable for professional IT and networking environments

Applications

- Network Equipment Installation

- CCTV and Security Systems

- Servers and Storage Devices
