

Product Data Sheet

SYSCOMX-RACK-22U 600X800

Product Overview

The SYSCOMX-RACK-22U is a professional **22U floor-standing rack cabinet** designed for structured cabling, network equipment, and IT installations. With a **600 mm width** and **800 mm depth**, it provides an efficient and secure enclosure for switches, patch panels, shelves, PDUs, and other standard 19-inch rack-mount devices.

Its **glass front door** offers visibility of installed equipment while maintaining a clean and professional appearance. The cabinet is suitable for use in offices, server rooms, control rooms, and telecom environments.

Key Features

- **22U usable rack space**
- **Standard 19-inch mounting format**
- **600 × 800 mm cabinet size**
- **Front tempered glass door**
- **Floor-standing design**
- **Strong steel cabinet construction**
- **Professional black finish**
- **Suitable for networking and server applications**
- **Compatible with common rack accessories**
- **Designed for organized cable and equipment management**

Applications

- Network infrastructure installations
- Structured cabling systems
- Small and medium server setups
- Security and surveillance systems
- Telecom and communication equipment
- Office IT cabinets
