

## Product Data Sheet

### SYSKOMX-RACK-9U-600 × 600 mm

#### Product Overview

The **SYSKOMX-RACK-9U** is a compact and durable wall-mount network rack cabinet designed to organize and protect networking and surveillance equipment. It provides a professional mounting solution for standard **19-inch rack devices** such as switches, patch panels, routers, NVRs, and other IT equipment.

Constructed from high-quality steel, the rack ensures strength, proper airflow, and convenient cable management, making it ideal for small to medium network installations.

#### Key Features

- ✓ Standard **19-inch rack compatibility**
- ✓ **9U rack capacity**
- ✓ **600 × 600 mm** cabinet size
- ✓ Heavy-duty **cold-rolled steel construction**
- ✓ Ventilation slots for effective airflow
- ✓ Supports **cooling fan installation**
- ✓ Easy **cable management system**
- ✓ **Wall-mount design** to save space
- ✓ **Lockable front door** for equipment security
- ✓ **Removable side panels** for easy maintenance
- ✓ Suitable for networking and CCTV installations

#### Applications

- ✓ Office network infrastructure
- ✓ Small server rooms
- ✓ CCTV and surveillance systems
- ✓ Telecommunications installations
- ✓ IT equipment management

#### Technical Specifications
