

SyscomX RJ45 Connector CAT5E UTP

Product Data Sheet | Box Packing | 100 PCS

1. Product Overview

The SyscomX RJ45 CAT5E UTP Connector is a high-performance network connector designed for reliable Ethernet cable termination. It is suitable for professional networking, CCTV systems, routers, switches, patch panels, and structured cabling installations.

2. Product Information

Item	Specification
Brand	SyscomX
Product Name	RJ45 Connector
Category	CAT5E
Type	UTP
Connector Type	RJ45 Male Plug
Quantity	100 PCS
Application	Network / CCTV / Data Cabling
Performance	High Performance / High Speed
Compatibility	CAT5E UTP Network Cables
Packaging	Box Packing
Color	Transparent Connector

The connector is intended for indoor structured cabling and network cable assembly where clean termination and reliable connectivity are required.
