1. Product Overview

The SyscomX RJ45 CAT6 UTP Connector is a high-performance network connector designed for reliable Ethernet cable termination. It is suitable for professional networking, CCTV systems, routers, switches, patch panels, and structured cabling installations.

1 KEY FEATURES

- RJ45 male plug connector for CAT6 UTP cables.
- Transparent housing for clear visibility of wire order.
- High performance design for network installations.

2 PACKAGE

- Box packing.
- Quantity: 100 PCS.
- Connector color: Transparent.

3 APPLICATIONS

- Network, CCTV, data cabling, routers, switches, and patch panels.
- Indoor structured cabling installations.

2. Product Information

Item	Specification
Brand	SyscomX
Product Name	RJ45 Connector
Category	CAT6
Type	UTP
Connector Type	RJ45 Male Plug
Quantity	100 PCS
Application	Network / CCTV / Data Cabling
Performance	High Performance / High Speed
Compatibility	CAT6 UTP Network Cables
Packaging	Box Packing
Color	Transparent Connector

3. Applications

Application	Recommended Use
Network Cabling	RJ45 termination for CAT6 UTP Ethernet cables
CCTV Systems	IP camera and NVR network cable connections
IT Devices	Routers, switches, computers, laptops, and patch panels
Structured Cabling	Professional indoor data cabling projects

4. Features

- CAT6 UTP RJ45 male plug connector
- Transparent connector body for easy wire inspection
- Suitable for reliable Ethernet cable termination
- Designed for professional network and CCTV installations
- Compatible with CAT6 UTP network cables
- Box packing with 100 pieces
