PRODUCT OVERVIEW

In a professional networking environment, airflow discipline is key. The SyscomX blanking panel prevents "air recirculation"-a common issue where hot exhaust air from the back of the servers leaks to the front. By installing these panels, you ensure that cold air is forced through your active equipment, extending the lifespan of your hardware and...

TECHNICAL SPECIFICATIONS

Model Number	SX-BP-01U
Height	1U (1.75 inches / 44.45 mm)
Width	19" Standard Rack Mount
Material	Heavy-Duty Cold Rolled Steel (SPCC)
Thickness	1.2mm Industrial Grade
Surface Finish	Matte Black Powder Coat (Anti-Scratch)
Mounting Type	Horizontal (Standard Cage Nut & Screw)
Thermal Efficiency	Specifically designed as a Close Panel to eliminate gaps between active equipment,...
