PRODUCT OVERVIEW

The SyscomX 2U Close Panel is a heavy-duty airflow management solution designed to cover larger unused sections of a rack. It is double the height of a standard unit, providing a more rigid and seamless seal for high-density server environments and professional networking cabinets.

TECHNICAL SPECIFICATIONS

Model Number	SX-BP-02U
Height	2U (3.50 inches / 88.9 mm)
Width	Standard 19" Rack Mount (EIA-310-D)
Material	Premium Cold Rolled Steel (SPCC)
Thickness	1.5mm Enhanced Industrial Grade
Surface Finish	Electrostatic Matte Black Powder Coat
Mounting Type	Horizontal (4-Point Standard Mounting)
Enhanced Thermal Blocking	The 2U Close Panel effectively seals larger gaps, preventing "Hot Air Recirculation"...
Increased Structural Support	Due to its 2U height and thicker 1.5mm steel, it acts as a stabilizing element for the...
Streamlined Appearance	Using 2U panels instead of two 1U panels creates a cleaner, more continuous surface on...

KEY FEATURES

- ✓ Enhanced Thermal Blocking: The 2U Close Panel effectively seals larger...
- ✓ Increased Structural Support: Due to its 2U height and thicker 1.5mm steel, it...
- ✓ Streamlined Appearance: Using 2U panels instead of two 1U panels...
