PRODUCT OVERVIEW

SyscomX CAT6 S/FTP Outdoor Cable is a high-performance twisted-pair network cable designed for outdoor installations and long-distance networking applications. The cable features double shielding (braided shield + foil) to minimize electromagnetic interference (EMI) and crosstalk, ensuring stable signal transmission in environments with heavy...

TECHNICAL SPECIFICATIONS

Cable Length	305 m (1000 ft) per box
Ethernet Support	10/100/1000 Mbps & 10Gbps up to 100 m
Category	CAT6
Cable Category	CAT6
Cable Type	S/FTP (Shielded Foiled Twisted Pair)
Conductor Size	23 AWG for improved performance and lower signal loss
Conductor Gauge	23 AWG
Shielding Type	S/FTP (Braid + Foil)
Shielding	Braided shield + individual foil protection to reduce interference
Test Certification	FLUKE Tested at 10Gbps up to 100 m
Application	Outdoor network installations

KEY FEATURES

- ✓ Category: CAT6
- ✓ Cable Type: S/FTP (Shielded Foiled Twisted Pair)
- ✓ Application: Outdoor network installations
- ✓ Conductor Size: 23 AWG for improved performance and lower signal loss
- ✓ Shielding: Braided shield + individual foil protection to reduce interference

APPLICATIONS

- ✓ Outdoor LAN infrastructure
- ✓ Network backbone installations
- ✓ CCTV and surveillance networks
- ✓ Industrial networking environments
- ✓ Long-distance Ethernet runs

PRODUCT HIGHLIGHTS

- Cable Length: 305 m (1000 ft) per box
- Performance Tested: FLUKE Tested at 10Gbps up...
- High-Speed Support: Up to 10 Gigabit Ethernet...

PACKAGE CONTENTS

- Box Length: 305 m (1000 ft)
- Cable Type: Pull box packaging for easy...
