PRODUCT OVERVIEW

The SyscomX CAT 6 STP Keystone Jack is a high-quality shielded RJ45 network module designed for structured cabling systems. It provides stable data transmission, strong protection against interference, and easy installation for network wall plates, patch panels, and data outlets.

TECHNICAL SPECIFICATIONS

Bandwidth	Up to 250 MHz
Category	CAT 6
Supported Cable Type	Shielded Twisted Pair Cable
Product Type	RJ45 Keystone Jack
Connector Type	RJ45 Female
Shielding Type	STP / Shielded
Color	Silver / White
Product Name	CAT 6 STP Keystone Jack
Housing Material	Metal Shield + Plastic Core
Installation Type	Toolless / Punch-down style

KEY FEATURES

- ✓ High-quality shielded metal body for better protection
- ✓ Supports CAT6 Gigabit Ethernet applications
- ✓ Reduces electromagnetic interference EMI
- ✓ Compatible with T568A / T568B wiring standards
- ✓ Easy installation in network faceplates and patch panels

APPLICATIONS

- ✓ Network wall outlets
- ✓ Patch panels
- ✓ Server rooms
- ✓ Office network systems
- ✓ CCTV network installations

PRODUCT HIGHLIGHTS

- Suitable for professional network cabling projects
- Strong and durable design for long-term use
