PRODUCT OVERVIEW

The SyscomX RG59 + Power Siamese Cable is a high-performance coaxial cable with dual power conductors integrated in a single jacket. It is designed for professional CCTV installations, supporting analog and HD video transmission while also delivering power over long distances. This makes it ideal for residential, commercial, and industrial security applications.

TECHNICAL SPECIFICATIONS

Cable Type	RG59 + Power (Siamese)
Conductor Type	Solid Copper
Shielding	Braided + Aluminum Foil
Frequency Range	Up to 3 GHz
Color	Black
Impedance	75 Ohm
Attenuation	Low Loss
Signal Type	Composite and HD Analog Video
Core Type	2 Core
Voltage Support	DC & AC

KEY FEATURES

- ✓ Supports HD-CVI / HD-AHD / HD-TVI cameras
- ✓ Compatible with analog and digital CCTV systems
- ✓ Suitable for CCTV, power, and PTZ control applications
- ✓ Sweep tested up to 3 GHz
- ✓ Low attenuation for video and audio signals

APPLICATIONS

- ✓ Residential CCTV systems
- ✓ Commercial surveillance systems
- ✓ Industrial monitoring setups
- ✓ PTZ camera installations
- ✓ Long-distance camera deployments

PRODUCT HIGHLIGHTS

- Dual inline power conductors for DC & AC
- Eco-friendly packaging with meter marking

TECHNICAL DETAILS

- Signal Type: Composite and HD Analog Video
- Core Type: 2 Core
- Voltage Support: DC & AC
