PRODUCT OVERVIEW

The SyscomX RJ45 CAT5E UTP Pass Through Connector is a high-performance network connector designed for fast, accurate, and reliable Ethernet cable termination. The pass-through design allows the cable wires to pass through the front of the connector before crimping, making it easier to check the wire order and reduce installation mistakes. It is...

TECHNICAL SPECIFICATIONS

Data Transmission	Up to 1000 Mbps
Bandwidth	Up to 100 MHz
Category	CAT5E
Cable Type	UTP
Connector Type	RJ45 Male Plug
Quantity	100 PCS
Color	Transparent Connector
Product Name	RJ45 Connector
Type	UTP Pass Through
Application	Network / CCTV / Data Cabling

KEY FEATURES

- ✓ CAT5E UTP RJ45 male connector
- ✓ Pass-through design for easier wire alignment
- ✓ Transparent connector body
- ✓ High-speed network performance
- ✓ Suitable for Ethernet cable termination

APPLICATIONS

- ✓ Network cable termination
- ✓ CCTV IP camera systems
- ✓ Routers and switches
- ✓ Patch panels
- ✓ Data cabinets

PRODUCT HIGHLIGHTS

- Compatible with CAT5E UTP cables
- Reliable connection for data and CCTV networks
- Easy installation using pass-through RJ45...
