PRODUCT OVERVIEW

The SyscomX RJ45 CAT6 UTP Connector is a high-performance network connector designed for reliable Ethernet cable termination. It is suitable for professional networking, CCTV systems, routers, switches, patch panels, and structured cabling installations.

TECHNICAL SPECIFICATIONS	
Bandwidth	Up to 250 MHz
Category	CAT6
Cable Type Supported	UTP
Connector Type	RJ45 Male Plug
Material	Transparent PC / Plastic Housing
Quantity	100 PCS
Color	Transparent Connector
Product Name	RJ45 Connector
Type	UTP
Application	Network / CCTV / Data Cabling

KEY FEATURES

- ✓ High-quality RJ45 CAT6 connector
- ✓ Suitable for UTP network cables
- ✓ Supports stable Gigabit Ethernet connection
- ✓ Transparent body for easy wire checking
- ✓ Gold-plated pins for better signal transmission

APPLICATIONS

- ✓ Network installations
- ✓ CCTV camera systems
- ✓ Internet cabling
- ✓ Patch panels
- ✓ Routers and switches

PRODUCT HIGHLIGHTS

- Easy to crimp and install
- Ideal for routers, switches, cameras,...
- Box includes 100 PCS

PACKAGE CONTENTS

- Color Transparent Connector
